ETHIOPIA's Super Fayda App and Pre-Registration

Empowering users and accelerating inclusion

Identity is the new collateral

National ID Program

Background

- Grassroot Led: Demand for Digital ID continues to be a bottom-up initiative by the general public as well as private and public institutions
- Identified as a Key Pillar for 10-year National Dvt. plan and Digital Ethiopia Strategy
- Recognition of ID as an *infrastructure* on which digital Social, Health, Financial services (both public and private) can be efficiently and sustainably built on

Approach

- Grounded on "Sovereignty from the Start"
- Focus on local capacity building training technical and functional experts
- Engagement of the private sector early in the process
- Backed by strong legal mandate and strictly foundational
- Scale-up model factors the youth and existing govt services to ensure reach and inclusion (e.g. MOU with EthioPost)

Status

- ID law enacted on March 2023 *Ethiopian Digital Identification Proclamation 1284/2023*
- Over 1.5 Million Digital ID credentials
- Integration with 11 Institutions. ie. Ministry of Revenues, Financial Service Providers

Inclusion (Interventions)

- **Legal:** Deliberate in ensuring strong Inclusion principles enshrined in law
- **Communication:** With 80 languages spoken, communication strategy includes localizing a great deal of NID materials
- **Wide physical access points:** MoU signed with EthioPost to ensure reach and quality of service relying on its wide network esp for rural and hard to reach communities.
- **Technology related:**
 - Offline Registration and Authentication
 - Multi-Platform support & Biometric options
 - Physical Credentials
- **Pre-Registration:** Onboarding made easier
- **Fayda Mobile App:** Complimentary service to lead to improved customer service experience

Intervention/ Approach

1

Pre-Registration

Enhances the onboarding process by collecting user information, reducing both time and effort required.

2

FaydaApp

A digital ID platform for smartphones offering secure, swift, and intuitive mobile identification and resident services.

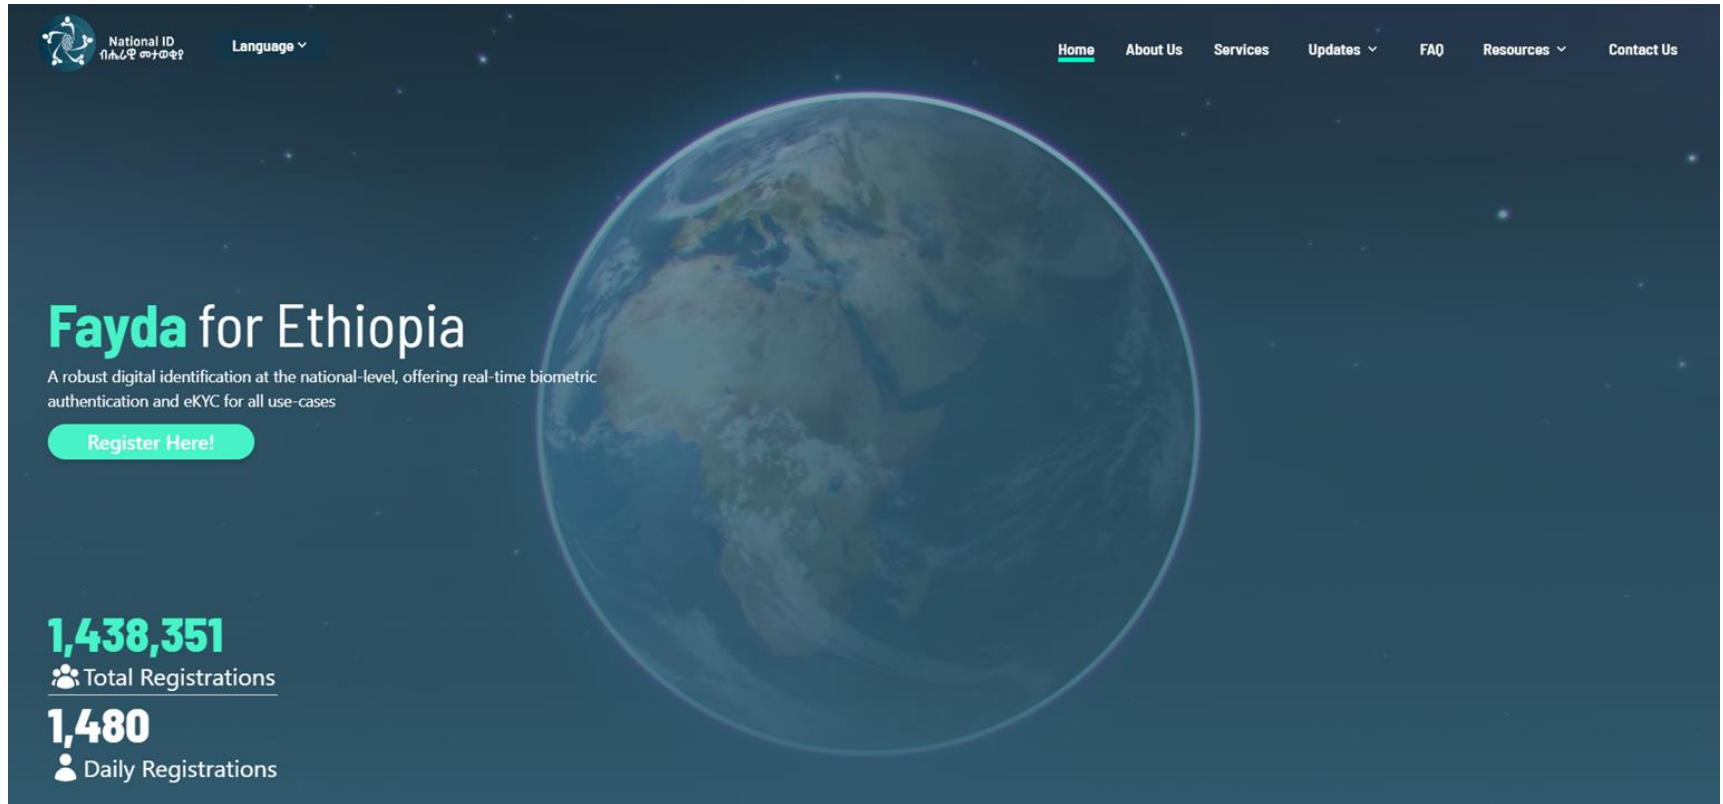

Pre-Registration

- ✔ Simplify Onboarding Process
- ✔ Accessible through the Fayda App or Fayda Webportal
- ✔ Capture enrollee's demographic datas and consent
- ✔ Reduce time and effort
- ✔ Pilot tested and rolled-out

Pre-Registration Process

The screenshot shows the homepage of the National ID system for Ethiopia. The background features a large, semi-transparent image of the Earth. The navigation menu at the top includes 'Home', 'About Us', 'Services', 'Updates', 'FAQ', 'Resources', and 'Contact Us'. The main heading is 'Fayda for Ethiopia', followed by a sub-heading: 'A robust digital identification at the national-level, offering real-time biometric authentication and eKYC for all use-cases'. A prominent green button labeled 'Register Here!' is positioned below the text. In the bottom left corner, two statistics are displayed: '1,438,351 Total Registrations' and '1,480 Daily Registrations'.

Pre-Registration Process

- ✓ OTP login
- ✓ Fill Demographic Data
- ✓ Upload Documents. Proof of Identity and Proof of Address
- ✓ Book Appointment: Date and Time
- ✓ Confirmation: Printed, PDF, SMS or Email

The screenshot displays a user interface for managing applications. At the top, there is a teal navigation bar with links for 'GETTING STARTED', 'FAQ', and 'CONTACT' on the left, and 'Your Applications' and 'Logout' on the right. Below the navigation bar, the main content area is titled 'Your Applications'. On the right side of this area, there are two buttons: 'BOOK/MODIFY APPOINTMENT' and '+ CREATE NEW APPLICATION'. The main content area contains two application cards. Each card displays the application ID, name, appointment date, and status. The first card is for 'Abebe Mola Kebede' with application ID 63857840389738 and an appointment date of 20 May 2023. The second card is for 'Tigist Michael Abraham' with application ID 38051859145847 and an appointment date of 31 May 2023. Both cards show a 'Booked' status and have links for 'Modify Information' and 'View Acknowledgement'.

Application ID	Name	Appointment Date	Status
63857840389738	Abebe Mola Kebede	(09:48 - 09:56) 20 May 2023	Booked
38051859145847	Tigist Michael Abraham	(10:20 - 10:28) 31 May 2023	Booked

Impact of Pre-Registration

Efficiency

Time management and precise appointment. Minimize Human Error

Illiteracy

Digital Navigators: Aided registration and form filling

Accessibility

Enrollment Location Availability Assistance

Inclusivity

Overall Encourages Use of registration

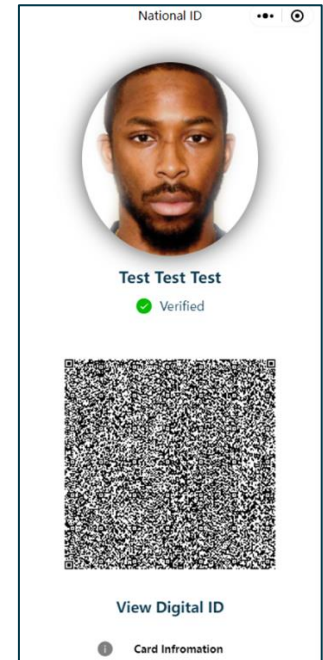

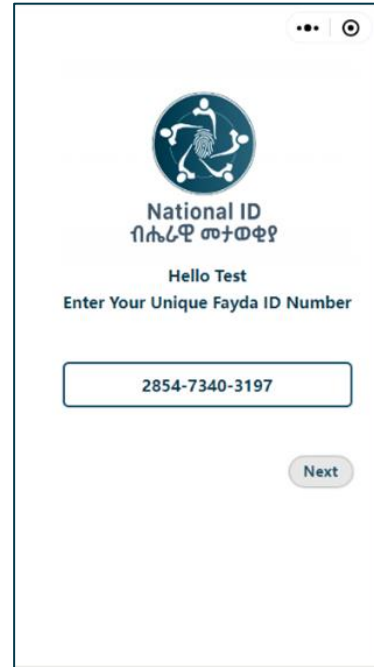

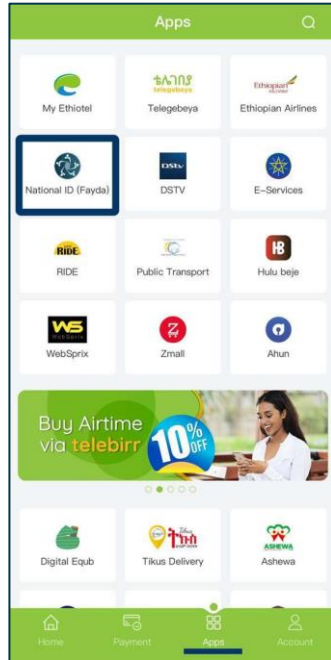

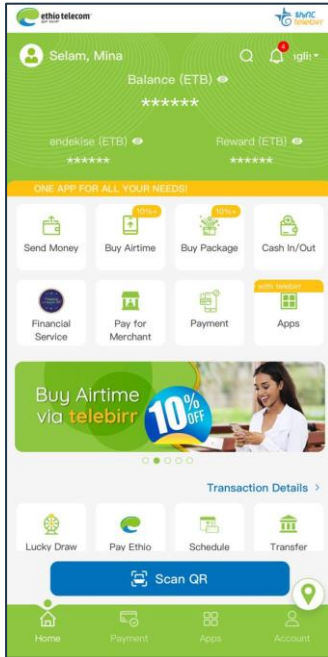

FaydaApp

Fayda SuperApp Features

- Under development
- To be launched end of 2023 for iOS and Android

Updates:

- Demographic Data
- Registration and Status

Authentication:

- Offline
- OTP/ PIN Authentication

ID Management:

- Retrieve Lost ID
- Pre-Registration UI

Credentials:

- **Fayda Encode** (Offline Authentication)
- Generate Printable Credentials

Fayda Encode

In the Ethiopian context, Authentication cannot fully be online because of challenges with respect to internet connectivity in certain areas.

Fayda Encode is a reliable offline authentication mechanism using 2D Barcode containing identification data, a resident will be able to take it anywhere for validation without losing privacy.

- Digital Credentials
- Printable Credentials

FaydaApp: Expected Outcomes

**Decrease
